Paul, we are still working on providing all the evidence that Draper City wants to verify our Grandfathered status on the Point of the Mountain Quarry. It looks like we should have a determination by the end of May. We therefore request an additional extension on providing the updated reclamation plan and surety calculation to May 31, 2016. The reason being is this decision controls the boundary and limits of our intended disturbance and bonding limits. Brent Sumsion

At this point we have three directives:

1. Update the reclamation cost estimate. This is due March 31.
2. Respond to our review of the map you submitted January 12, 2016. This is also due March 31, 2016.
3. Reclaim the 2.09-acre area that was the subject of the cessation order we issued last fall.

These are all interrelated, and I assume your extension request is for all of them. Would you please confirm that my assumption is correct or provide clarification?

Thank you.

Paul, Leslie, we turned in our Application for Administrative Interpretation to Draper City on May 9th. We have also proposed a reclamation plan on the 2 acre "encroachment" and so far haven't received a response to either. At this point I think we would like to ask for an additional 2 month extension on all three directives, as we can't proceed without these final decisions from Draper City. Brent Sumsion

Paul, this will confirm our phone conversation earlier today. We have received written notice from Draper City Administrator, Keith Moorey that Draper City concurs with our grandfathered status presentation. However, there has been an appeal by 2 citizens of Draper, Adrian Dibwad and Jason Ricabaugh. So there will be an appeal hearing held by Draper City probably towards the middle of August. We are optimistic about the outcome of the appeal, but never the less need to see how it settles out before we know for sure the legal limits of our quarry boundary. We therefore ask for another 2 months extension to Sept. 30 to provide the information requested by the three directives included in your March 28th email. We appreciate your consideration in this matter. Thank you. Brent Sumsion
